6	Ų.	place in the third week of April 1998?	6	A.	I think that I would that I was concerned
7		MR. McCLENAHAN: I'll object to that.	7		about the losses and amounting losses, and at
8		I think that was actually I'll object to the	8		that point I would say that I think we felt
9		form of the question. I don't think that you	9		I felt it was more environmental than it was
10		are right.	10		management-related at that point; environmental
		. To a state of the state of th	11		meaning the reasons we were given for the
11			12		problems were, you know, Medicaid reductions in
12		MR. FRIESEN: Objection, he already	13		nayments and a number of different changes in
13		says he doesn't remember.	14		reimbursement and so forth, which were which
14		i i i i c i i i i i i i i i i i i i i i	15		was the environment of the medical community at
15		positio datos?	16		that point in time, as opposed to saying that ${ m I}$
16		specific dates?	17		thought the management at that point were
17		. I don't remember the date honestly.	18		totally derelict in their responsibilities or
18		But in any event, the meeting you are telling	19		anything of that nature.
19		me about happened after the payment, whenever	20		2. In response to Mr. Friesen's, one of his prior
20		that happened?			questions, I think he asked you if you had
2:	1 4	. That was my recollection.	21		confidence that management could improve the
22	2 (. You talked a little bit this morning about the	22		situation, and I think you responded that yes,
23		10/30/1997 finance committee meeting that you	23		or you would have strenuously objected or
24		attended. Do you recall discussing that with	24		or you would have strendously objected or
2!		Mr. Friesen?	2!)	perhaps resigned from the board. Do you
			- 1		

	_	Page 102			Page 104
1		remember discussing that?	1		standards, accounting standards; and that they
2	A.	Mm-hmm.	2		would in essence wind up giving us a management
3	Q.	Is that a yes?	3		letter, if you like, and also a audited,
4	Ą.	Yes.	4		hopefully an unqualified statement; that they
5	Q.	Any other options that you would have in your	5		would look at fraud issues or some other issues
	Ų.	mind as a finance committee member if you did	6		perhaps that were evident.
6		have serious doubts about management's	7		But all that being said, you know, my
7		competence to lead the enterprise through its	8		knowledge of accounting and my knowledge of
8			9		auditing is certainly not what I do for a
9		financial problems?	10		living, but I know in my own companies even
10		MR. FRIESEN: Objection, calls for	11		that they rely heavily on the management of the
11		speculation.	12		company to report things accurately, and I
12	Α.	Yeah, I at that point no, I don't think so.			don't think they are there as watchdogs to find
13	Q.	At that point you are referring back to October	13		fraud and they might stumble on it if I
14		of '97?	14		Traduction of the state of the
15	A.	Right.	15		won't say lucky, but you have you have them
16	Q.	Did you ever attend any board meetings at	16		there for a different purpose I think than
17		AHERF I'm sorry, any committee meetings at	17		that.
18		AHERF at which a decision to file bankruptcy	18		MR. FRIESEN: I'm sorry, just so the
19		was discussed?	19		transcript is clear, did you say not watchdogs?
20	Α.	No.	20		MR. UNICE: I believe he testified
21	Q.	And you had no discussions personally with any	21		they were you can go ahead and answer that
22	Ψ.	of AHERF's lenders regarding alternative	22		one.
23		financing?	23	Q.	I think you testified that one role of the
24	Α.		24		auditor was as a watchdog to suspect fraud from
25	Q.	Towards the end of your discussion with	25		management.
-	٧.		ļ		
-		Days 102			Page 105
١.		Page 103	1	A.	Right, if they saw fraud or any other unusual
1		Mr. Friesen, you were asked a series of	2	,	practice that would lead them to have any
2		questions about the format and content and size	3		concern, that they would bring to the board or
3		of board meetings and committee meetings. Do	4		bring to the outside directors.
4		you remember that testimony?	5	Q.	In your board experience outside of AHERF, has
5	Α.	Yes.	1	Q.	there ever been an occasion when entities'
6	Q.	At any point during your service at AHERF, did	6		mere ever been an occasion when endies
7		you ever feel like you weren't prepared to	7		outside auditors did, in fact, bring to your
8		fulfill your fiduciary duties to the system or	8		attention suspected fraud on the part of
9		its subsidiary boards?	9	_	management?
10	A.	No.	10	Α.	No.
11	Q.	You have an understanding, I assume, that	11	Q.	Did that while at AHERF, did the external
12	_	Coopers & Lybrand was, in fact, the system's	12		auditors ever bring to your attention any
13		external auditors during the time you were a	13		concerns they had with expected fraud I'm

15	A.	Yes.	15		management?
16	Q.		16	A.	
17	٧.	understanding, if any, of Coopers' role as	17		MR. FRIESEN: Objection. He had no
18		external auditor?	18		contact with them.
19		and the second s	19	Α.	Yeah, well, the answer's no, but not
20		would be no different than being the external	20	Q.	
		auditor of any company, that is they would	21	Ã.	
21		provide an overview of the finance function,	22	Q.	CAUCDE III
22		the operating function of the system; and they	23	٠.	in fact, find fraud on the part of financial
23		would assure the board that the financial	24		management in the presentation of financial
24			25		information that was given to them, that the
25		reporting was in accordance with proper	23		and made in a given to allowy areas and
			1		

Page 108 Page 106 intentionally misstated by management, would 1 auditors would bring that to the board's 1 that be a fact that you would expect the 2 2 attention? auditors to bring to the board or audit 3 MR. FRIESEN: Objection. He's not on 3 committee's attention? 4 the board. 4 5 Yes, I would. A. 5 Go ahead. Q. MR. FRIESEN: Objection. 6 Yes, I would expect them to. 6 Α. Q. If the auditors, in fact, had concerns about 7 You also mentioned that one of the roles of an 7 Q. the integrity or competence of financial auditor in your understanding was to provide or 8 8 management at AHERF, would those issues be some 9 to present unqualified opinions? 9 which you expect the auditors to bring to the 10 MR. McCLENAHAN: I'm not sure that's 10 board or the audit committee's attention? 11 exactly what he said. 11 MR. FRIESEN: Objection. 12 MR. FRIESEN: Objection. 12 I said one would -- one would hope for an 13 A. Yes. 13 A. If the auditors had come to you personally Q. 14 unqualified opinion. 14 during your tenure at AHERF, during your That was poorly phrased. One of the roles of 15 15 Q. service of tenure at AHERF, with any of those an external auditor is to provide an opinion on 16 16 revelations, would that have impacted your view the financial statements of the enterprise, and 17 17 on the success of management's implementation 18 I think one type of those opinions that you 18 of its business strategy that you discussed 19 mentioned is an unqualified opinion; is that 19 earlier with Mr. Friesen? 20 20 right? MR. FRIESEN: Objection. 21 Yes, yes, right. 21 Α. MR. McCLENAHAN: Yeah, I'm going to Thanks for the clarification. What is your 22 Q. 22 object to the form of the question. I don't 23 understanding of an unqualified opinion as you 23 know what you mean by of any of, quote, those 24 used that term? 24 revelations. 25 My understanding would be that the financial 25 A. Page 109 Page 107 MR. UNICE: The ones that you and I 1 1 2

reporting systems and the information that you see presented in a financial -- in a report or an annual report or year-end report, whatever is being audited, would comply with, you know, generally accounting standards, which -- which, you know, I'm not an auditor, I'm not a finance person, so I don't know if they have different ones for medical systems versus corporations versus whatever.

But there are -- there are, to my understanding, standards that have to be met, generally accepted principles, and that's what they are there to do is to see that that's accomplished, to state that.

14 Now, if Coopers & Lybrand did arrive at the 15 Q. conclusion that the financial information 16 presented to them by AHERF management was 17 presented in violation of generally accepted 18 accounting principles, would you expect that to 19 be something that the auditors would bring to 20 the board's or audit committee's attention? 21

MR. FRIESEN: Objection.

In a general sense, yes. 23 Α.

2

3

4

5

6

7

8

9

10

11

12

13

22

If Coopers & Lybrand had discovered that 24 Q. information presented by management was 25

just discussed, and I can break it down by question if you prefer. I'll do that for you, David.

5 BY MR. UNICE:

3

4

6

7

8

9

10

11

12

13

20

If financial management had come to -- I'm Q. sorry, if the external auditors had come to you with questions they had concerning the competence or integrity of financial management, would that have raised questions in your mind as to the success or wiseness of AHERF management's implementation of its business strategy?

14 Α. Yes.

MR. FRIESEN: Objection.

15 Would your response be the same if the auditors 16 had come to you with the concern that the 17 financial information presented to them had 18 been materially misstated? 19

MR. FRIESEN: Objection.

21 Α. Yes.

Would your response be the same if the auditors 22 Q. had come to you with information that they 23 believed showed that the financial information 24 presented to them was prepared in violation of 25

MR. McCLENAHAN: Well, is there

something you want to call his attention to?

Yes, let me do it this way. Based on what

22

23

24

25

Q.

alternative, yeah, it might be.

Q. So any of the -- I'm sorry, go ahead, sir.

Your last question, would it be appropriate to

get outside -- somebody else to come in and

22

23

24

25

Α.

Page 114 you've reviewed so far in the document, does this refresh your memory at all about any discussions at the finance and audit committee meeting regarding the decision to not retain PriceWaterhouseCoopers? And I'll point your attention to page Bates numbered CL 150837, the middle of which contains a resolution recommending that the AHERF board replace PriceWaterhouseCoopers as

1

2

3

4

5

6

7

8

9

10

subsidiaries. 11 A. I'm sorry, would you repeat the question? 12

external auditor for AHERF and its

Sure. Does that passage I just referenced to 13 0. you refresh your memory as to any discussions 14 that you took part in regarding the decision to 15 replace PriceWaterhouseCoopers?

16 I don't remember any -- any specific 17 A. discussions or who said what at the meeting. I 18 do remember that we did decide to replace the 19 auditors, that we were disappointed with the 20 management, we were disappointed with the 21 outcome, the circumstances. We were generally 22 disappointed with, you know, the condition of 23 the -- of the system at that point in time, and 24 so it seemed perhaps prudent to make a change, 25

Α. No. 1

> And reviewing this document doesn't refresh 2 Q. your memory as to any comments he may have had; 3 4 is that right?

Page 116

Page 117

5 No, it really doesn't. A.

Did you take part in any discussions that led 6 Q. to the termination of either Mr. Abdelhak or 7

Mr. McConnell?

9 Α. No.

8

Did you see any documents during your service 10 Q. at AHERF regarding the termination of either of 11 those individuals?

12 Α. No. 13

Were you aware that the fall of 1998 14 Q.

PriceWaterhouseCoopers and AHERF issued a press 15

release stating that the fiscal year 1997 16

audited financial statements should no longer 17 be relied upon? 18

I remember something to that effect. 19 A.

Can you explain your recollection to me?

20 Q. Basically what you just said, couldn't rely on 21 A.

the financial statements. 22

Did you take part in any meetings at which the 23 Q. decision to make that press release was made? 24

25 A.

Page 115

if for no other reason to be sure that we were 1 getting a fresh look at it and where we were. 2

So I think that -- I think I can say that with 3 4

some degree of certainty.

Do you recall a vote being taken at this 5 Q. finance and audit committee meeting regarding 6 the replacement of Coopers -- I'm sorry, of 7 PriceWaterhouseCoopers? 8

A. I don't remember. I'm sure there was if it's 9 stated there was, but I don't remember. 10

I take it you don't recall which way you voted? 11 Q.

I don't. However, in all honesty I doubt that 12 I would have objected to this, but I don't 13 remember specifically. 14

Do you recall any discussion by Mr. -- well, 15 Q. let me ask you a different question. Do you 16 know who Joe Dionisio is? 17

I remember the name now that I see it. 18 Α.

Q. Do you recall his role in AHERF? 19

It was in the finance function somewhere. 20 Α.

Do you recall any comments he made at this 21 0. meeting regarding any pros and cons of 22

replacing --23

24 Α. No.

-- PriceWaterhouseCoopers? 25 Q.

Do you recall any --1 Q.

Or I don't recall. I don't recall. 2 A.

Okay. Do you recall any reasons supporting the 3 Q. 4

decision to make that press release?

5 A.

Now, the exhibit we just spoke about, 2105, 6 Q.

lists you as a member of the finance and audit 7

committee. Do you recall when that committee

was formed at AHERF? 9

A. 10

8

13

20

Do you have an understanding as to how you 11

became a member of the finance and audit 12

committee?

I believe it was -- I won't say I believe. I 14 Α.

was a member of the finance committee for 15

AHERF, and it was my -- it is my understanding 16

that that committee continued on after -- after 17

the bankruptcy filing. So, therefore, I was a 18

member of the prior committee, I continued to 19

be a member of the committee.

Q. Can you tell me when your committee service 21 22

ended on the finance and audit committee?

No, I don't remember. 23 Α.

And at the 8/27/98 meeting, do you recall any 24 Q.

comments by Anthony Sanzo regarding his views 25

SANZO, ANTHONY - Vol. 2

Page 354 Page 356 was different than what Mr. Abdelhak had organization and its constituent parts; so 1 1 2 2 advised? first, skills. 3 A. Mr. Abdelhak had apparently --3 A. I've said on many occasions, and I will say I was told by Mr. Gumberg who told me today under oath, that I thought and still 4 4 that he learned of this directly from 5 5 think that Sherif Abdelhak was perhaps one of 6 Mr. Abdelhak. the brightest people I ever worked for. He was 6 7 Q. Okay. So at some point -- and you don't, I skilled, may still be skilled; I don't know. 7 take it, think that you learned that in the 8 8 And he was articulate, he was fast on conversation with Mr. Gumberg over the Memorial 9 9 his feet, he could analyze complex situations Day weekend. It was prior to that. 10 10 faster than anyone else and, in fact, he was a 11 A. It was prior to that. 11 deal-maker, and I think the reason many of us Q. So at some point, Mr. Gumberg advised you that 12 12 had confidence that the Vanguard deal would get the payment -- the \$90 million payment was 13 done was because he said it would get done. I 13 14 actually made from assets of AGH and Forbes, 14 mean, he had done deals in the past, several, and that he had learned that from Mr. Abdelhak. 15 so there was that level of confidence. 15 Yes, sir. 16 Did you say dedication? 16 A. What do you recall about that conversation? 17 O. 17 Q. Dedication to the AHERF system and its What were Mr. Gumberg's observations or your 18 18 constituent parts. 19 own? 19 A. He was definitely dedicated to all of AHERF. I 20 A. Mr. Gumberg was livid in expressing this to me, 20 think what hurt especially Old Alleghenians -angry in expressing this to me, indicated that I was not a member. I joined Old Allegheny in 21 21 he learned it in the context of Mr. Abdelhak 1986, but especially the Old Allegheny alums, 22 22 asking him for help in getting the other medical staff, members of the board, his 23 23 trustees to accept -- he and other trustees to 24 dedication to the greater AHERF, all of AHERF 24 accept this action. and all of its constituent parts, hurt those 25 25 Page 355 Page 357 He was -- when I said livid, livid who believed that they were the fountainhead, 1 1 that request would have been made to him, and or the organization from which they hailed was 2 2 3 he told me that he directed Mr. Abdelhak to 3 the fountainhead of the AHERF organization, but 4 immediately report this to both the chairman of 4 he was definitely dedicated. the AHERF board and the chairman of the AUH I mean, even when he was wrong, he 5 5 West board, who at that time was Frank -made decisions based on what he thought was 6 6 7 Mr. Cahouet. 7 going to be in the best interest of AHERF. 8 8 Notwithstanding all of that, he did My reaction, of course, was a punch 9 in the stomach kind of reaction. 9 have some trouble with ego and humility, and he Q. Now, up to the point where you learned that 10 was perhaps not --10 Mr. Abdelhak had utilized assets of AGH and He was perhaps arrogant, and when I 11 11 say that, I don't mean rude. I mean that I Forbes to repay a bank loan -- something the 12 12 13 prior agreements said would not happen without 13 think he understood that he was smarter than 14 vour consent --14 the average bear and acted sometimes as if he Correct? 15 15 were. Correct. 16 So I would say that that was --16 A. before this, after this, that was something 17 17 O. -- and that, in fact, something different than Mr. Abdelhak had told you he had done with 18 that any of us, if we were under oath and asked 18 respect to repayment of that loan, up to that 19 to testify what do we think about Sherif, 19 20 point, what was your opinion, your personal 20 that's probably not as --

his ego get the better of his managerial decisions.

And just to fill out this question, Mr. Sanz

He was -- sometimes I think he let

Q. And just to fill out this question, Mr. Sanzo,what were your observations about his work

21

22

23

opinion, of Mr. Abdelhak's skills as a

manager -- I'm going to ask you three

questions -- skills as a manager, number one;

AHERF; and, number three, loyalty to the AHERF

number two, dedication to the progress of

ethic and so on? Was he a part-time guy or --No. He may not have been working at the office, but the guy worked all the time. He called me --

I felt that he had a device that knew when I had an out-of-town guest, because I would get a call especially when I wanted to be someplace else. Some portion of our working career that overlapped, we lived within two miles of each other. You might consider that convenient. I did not, but, I mean, he definitely was a hard worker. He probably --

Well, I don't know. He was a hard worker.

- And then the last element of this, Mr. Sanzo, Q. is loyalty, by which I intend to convey the question of was this a guy who was making deals for himself or creating financial incentives for himself as opposed to a loyalty to the organization for which he was working, from your observations?
- A. I think he was motivated first by his loyalty 22 to the organization, but he was definitely 23 motivated by what his accomplishments may mean 24 25 financially to him. I don't think he was

thought about, but I discussed. Having never met Charlie Martin, Charles Martin, the CEO of Vanguard, or the team with whom he had been working to do the diligence in Philadelphia, there was some concern that, you know, a new face could possibly change the deal; and I shared the concern. I was --

My concerns were mitigated by my knowledge that David McConnell had been intimately involved in the discussions, and I ultimately I think that's the side we came down on.

Okay. And with whom did you --Q.

You said you had a concern and you shared a concern regarding whether a new face in the Vanguard transaction -- I take it, could delay or jeopardize it. Was that your concern?

- A. I was more concerned about a delay than I was killing the deal, so to speak.
- Q. And with whom did you have --20 21

With whom did you share that concern?

A. I talked to David McConnell about it. I talked to Nancy Wynstra, or "Wynstra," about it. I may or may not have talked to trustees about it. I don't know.

Page 359

superhuman in that way. 1

- Q. Did you ever become aware, either while you were at Allegheny General or afterward, of Sherif Abdelhak diverting or taking any money or property out of the AHERF organization for his personal use or personal gain?
- 7 No. sir. A.

- 8 Q. You never heard anyone else discuss that 9 either?
- A. I think people discussed compensation and other 10 perks that all were apparent to anyone who had 11 access to the full books, but no acquisition 12 13 of --

I'm taking your question to mean stealing and --

- Q. Essentially that. 16
- No. I never heard any such acquisitions. 17 A.
- Mr. Sanzo, did you --18 Q.

When you learned about the potential removal of Sherif Abdelhak, did you have any opinion at that point as to what that might do to the proposed sale of eastern hospitals to Vanguard?

23 24 A. Maybe not at the exact time that I heard that, but it was actually something that I not only 25

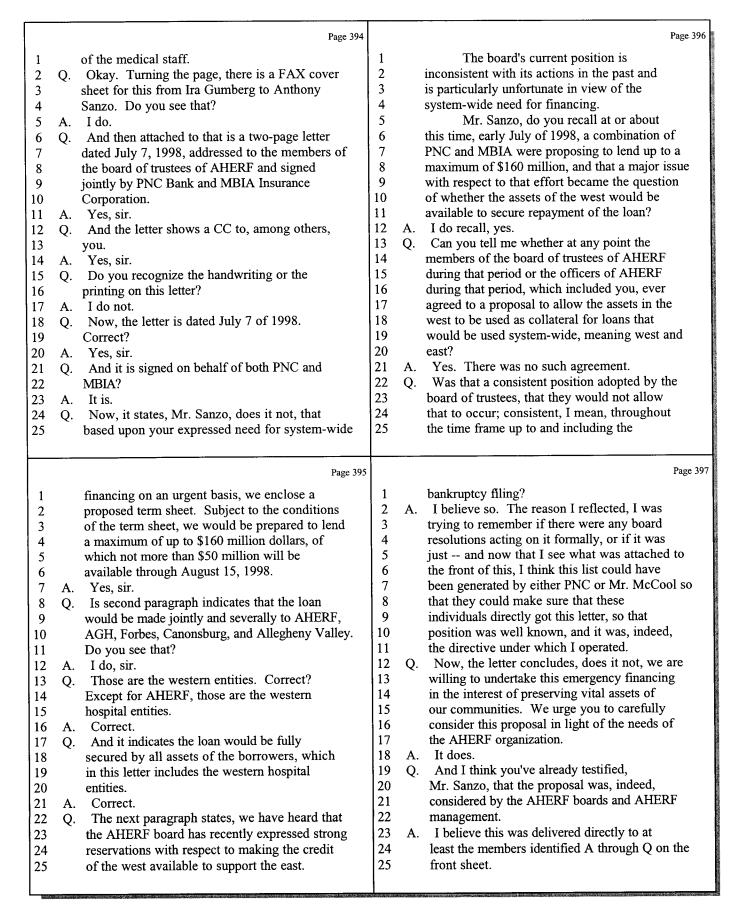

Do you recall having those conversations before 1 2 Mr. Abdelhak was terminated or afterward?

3 Afterwards. A.

4 Q. So those conversations are conversations you would have had after Mr. Abdelhak was 6 terminated after you became the president of 7 AHERF and, in effect, after Mr. McConnell and 8 Ms. Wynstra became folks who were reporting to

- 10 A. That's correct, sir. I would not have presumed to have those conversations otherwise. 11
- Prior to becoming the CEO of AHERF in June of 12 13 1998, as I understand your testimony, you had no responsibility for any of the eastern 14 15 operations of AHERF.
- A. That's a correct statement. 16
- O. Having said that, prior to your becoming the 17 CEO of AHERF, did you have any opinion 18 regarding the quality of the management that 19 20 was responsible for the operations in the east?
- A. I may have had some PIPs. They're not 21 22 remarkable.
- Q. And by "not remarkable," you mean what? 23
- A. If you're asking if I thought they were a bunch 24 of bozos in the east and why don't they put 25

Page 398 Q. Okay. But that there never was a departure by 1 any of the AHERF officers or trustees from the 2 position that no assets of the west will be 3 available to secure this line? 4 It was an issue that was discussed, but no 5 departure from that position was taken. 6 7 Q. Okay.

(Deposition Exhibit No. 1642 marked for identification.)

12 BY MR. McDONOUGH:

- 13 Q. Mr. Sanzo, I'm going to show you next what's 14 been marked as Exhibit 1642. It is a letter 15 dated July 11, 1998, from MBIA to the board of 16 AHERF in care of you.
- 17 A. Yes.

8

9

24

25

- 18 Q. Now, in reviewing this letter, Mr. Sanzo, do 19 you have any recollection of having received it 20 at or about the date of July 11, 1998?
- 21 A. I believe I received it, yes.
- Q. And just chronologically, this would have been
 about a week or so prior to the actual filing
 of bankruptcy petitions on behalf of some of
 the AHERF entities.

MBIA would be pleased to consider providing, just as we have already provided interim financing proposals which the board has rejected.

Page 400

Now, I didn't frankly mean to read that much into the record. I apologize but, Mr. Sanzo, here are my questions with you with respect to this.

Do you recall any consideration by the AHERF board of the position taken by MBIA in this letter that a sale of the entire AHERF system could be achieved at a price that would repay in full all debt and, in fact, in excess of all debt?

A. I do recall, again to the best of my ability, that the options of combining the entirety of the AHERF system in any form of reorganization, restructuring, or sale, was rejected, was considered and rejected, rejected again not with -- without debate and without dissension by certain members of the board, and, no, I can't remember who would have dissented at this point in time, but it was largely split between, shouldn't be a surprise, but those members based in western Pennsylvania and those

Page 399

A. Yes. I think it was about ten or twelve days.

Q. Now, this letter states, dear board member, as president of MBIA Insurance Company, insurer of \$300 million of Delaware Valley Obligated Group bonds and \$71 million of AGH bonds, I am writing concerning the difficult choices currently facing the board of AHERF. Correct?

8 A. Correct. 9 Q. And it go

And it goes on to state, we at MBIA have been given to understand that the board is considering bankruptcy filings for one or more entities within the AHERF system. We believe such a filing could have highly deleterious effects on the delivery of health care services and education in Pennsylvania.

Finally, Mr. Anthony Sanzo, your new CEO, has told us that the board has not actively considered the sale of the whole AHERF system as a means of avoiding a bankruptcy filing.

Our advisors indicate that the sale of the entire system would very likely yield a purchase price well in excess of all debt. The need for a bankruptcy filing would be obviated, subject to receipt of interim financing, which Page 401

members who were based in eastern Pennsylvania. But it was rejected on the basis that

there was a fairly strong belief that the entities, including the New Jersey hospital entities and all entities in the west, if freed from their -- from the financial burden of eastern operations, would be able to survive on their own and, therefore, since they were separately obligated debts, they should be treated as separate organizations, and individual decision should be made on behalf of each rather than one on behalf of the whole.

Yes. I have some recollection of those discussions.

- Q. And were those discussions and decisions a further reflection of what we've been talking about, a decision in the west that no further value from the west was going to be extended to benefit the east?
- A. I think it was a reflection of that position, yes, sir.
- Q. Now, Mr. Sanzo, do you recall any analysis within the AHERF organization with respect to whether the statement made here by a major bond insurance company, to the effect that if the

		Page 402			Page 404
			1		are willing to consider interim financing for
1	A	HERF system were sold, as a whole, that would	1		members of the Delaware Valley Obligated Group

2 with 3 othe 4 he w 5 leve 6 Q. WH 7 budy 8 A. I ca 9 don' 10 be th 11 a gu 12 13 debt 14 it wa 15 kept 16 17 Chua 18 had 19 was 20 goin 21 22 the b 23 budg 24 arms	o decided to book bad debt expense at geted levels? In't say. I know why it happened, but I know who made the call. My guess would at Chuck Morrison did, but that's simply ess on my part. I know the big concern was that bad expense was all over the place, meaning s not a consistent number, and it just getting higher and higher. I think people in operations who k Morrison had to talk with and deal with concerns about whether bad debt expense right and why it was so high and what was	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	A. Q. A. Q. A.	was an accounting group in Pittsburgh and a separate accounting group out in Philadelphia?
2 opers 3 for si 4 Q. Wh 5 A. He si 6 of th 7 actua 8 a ver 9 accou 10 Pitts 11 be mi 12 13 13 exam 14 was si 15 with 16 opers 17 what 18 anoth 19 were 20 I 21 Chuc 22 Phila 23 and h 24	rirective, based on his dealings with ations, but I can't say that 100 percent are. At was Mr. Morrison's role at AHERF? was the CFO, the chief financial officer, a ceastern region hospitals, so he ally was located in Philadelphia. He had a large staff out there, a big anting staff just like we had in bourgh, and his people were supposed to bore operational. Like he had Kathy Stephans, for ple, reported directly to him, and she upposed to be like the direct contact Hahnemann Hospital dealing with their ations people and trying to understand was going on. Randy Jacobson was are one that reported to Chuck. Those his top two people. Peter Keyes prepared the budgets for k Morrison. So he was out there in delphia with his own accounting staff, a was the chief financial officer of all ospitals out there.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	Q. A. Q. 		you talking about during the '96 audit?	1		them agings, they were trying to run some of
2	Α.	g, y vo.	2		their own calculations trying to figure out
3	Q.	And who from Coopers did you speak with about	3		what these guys really mean, meaning the DVOG
4		those issues?	4		hospitals on their books as far as bad debt
5	Α.	and the second section with	5		versus what they have.
6		Amy directly, and I think that Brian	6	Q.	
7		Christian was actually doing the '96 audit,	7	-	Coopers may have run on their own?
8		if I recall correctly. But one of the things	8	Α.	
9		they did as an example is they took our	9		Brian I believe it was Brian Christian
10		agings for our hospitals and dumped them into	10		took my agings and tried to put them into the
11		the AGH model, the Allegheny General Hospital	11		AGH model. I remember there was just some
12		model, just to see how far off we were if we	12		things they asked me to take a peek at them
13		used their methodology which Coopers was very	13		just to say did we do this correctly.
14		comfortable with.	14		I just remember briefly looking at
15	Q.	When you say our hospitals, you're talking	15		them, maybe saying, well, no, this payor
16		about DVOG hospitals?	16		really should be this one or that's that.
17	Α.	DVOG, yes.	17		Just some general things that I added. But
18	Q.	And AGH is Allegheny General Hospital?	18		that was the extent of my looking at what
19	A.	Yes.	19		they did. They usually presented that stuff
20	Q.	They had a different method of calculating	20		higher up than me after they came up with
21		bad debt allowance for the DVOG hospitals?	21		their answers.
22	Α.	Yes.	22	Q.	
23	Q.	Is there anyone you can remember from Coopers	23	Ψ.	was of any calculations that Coopers may have
24		talking to about bad debt issues in the '96	24		run like that?
25		audit other than Ms. Frazier and	25	Α.	I vaguely recall that we did book additional
					g , we are even additional
		Page 31			
1		Mr. Christian?	١.		Page 3
2	Α.	Me specifically talking to anyone else, I	1		reserves in June. I don't know how much,
3	11.	don't recall.	2		June of '96. I don't know how much or where
4	Q.	Now, you said that they had concerns?	3		they came from exactly, but I do remember
5	Α.	Concerns, yes.	4		that I think Bill Beuttner proposed that we
6	Q.	Can you tell us what you can recall about	5		actually book something to try to help solve
7	Q.		6	_	the problem.
8		what they told you about what their concerns were?	7	Q.	Do you recall that there was a \$17 and a half
9	A.	What I recall is just when they one, we	8		million amount of additional reserves that
10	11.	had different methodologies and, two, the	9		were booked?
11		percentages we were using, depending on how	10	Α.	That's the number. Now that you say that
12		old the receivables were, were different	11		number I recall it. I can actually see it on
13		among the hospitals and not always probably	12	_	a memo that Dan had written, yes.
14		as high as they should have been.	13	Q.	Was it your understanding that the idea for
15		What I recall specifically is them	14		doing this came from Coopers?
16		looking at our bad debt the way we recorded	15	Α.	Yes.
17		bad debt, not being very comfortable with the	16	Q.	Who did you get that understanding from?
18		percentages themselves because of the aging	17	A.	That the idea came from Coopers, that would
19		of the receivables and just saying that, you	18	_	have been Dan.
		know, if we used the DVOG numbers in the AGH	19	Q.	How frequently generally while you were at
		model, what would we need as a reserve at	20		AHERF did you interact with Mr. Cancelmi?
20		model, what would we herd as a reserve at	21	Α.	Very frequently.

So those four hospitals would be Elkins Park, Bucks, St. Christopher's and MCP? Yes.	Page 45
2 0 3 4 4 5 6 7 4 8 9 0 10 11 4 12 13 14 15	Q. A. Q. A.	And at Hahnemann you applied the balance sheet method every month? Every month, yes. So who would actually perform that calculation? That would be me and my staff that would do that. Would you do that or would Mr. Savchak or Ms. Gall and Ms. Forte? Normally the staff would. Early on when we were acquiring the DVOG hospitals I did a lot of the detailed work myself. I actually did most of it myself for the first couple of months before it was brought back to	Page 43	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Q. A. Q. A. Q. A.	that problem would get fixed at year-end? Yes, for the audit, yes. And did you prepare the calculations for those four hospitals using the balance sheet method at year-end? Either myself or the staff, one or the other. And if the staff prepared it, would you have a look at it? Yes. You would see that it was right? Yes. So those four hospitals would be Elkins Park, Bucks, St. Christopher's and MCP? Yes. Now, the patient accounting information from	Page 45
2 0 3 4 4 5 6 7 8 9 0 10 11 4 12 13 14 15 16	Q. A. Q. A.	And at Hahnemann you applied the balance sheet method every month? Every month, yes. So who would actually perform that calculation? That would be me and my staff that would do that. Would you do that or would Mr. Savchak or Ms. Gall and Ms. Forte? Normally the staff would. Early on when we were acquiring the DVOG hospitals I did a lot of the detailed work myself. I actually did most of it myself for the first couple of months before it was brought back to Pittsburgh. But normally the staff	Page 43	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Q. A. Q. A. Q. A. Q.	that problem would get fixed at year-end? Yes, for the audit, yes. And did you prepare the calculations for those four hospitals using the balance sheet method at year-end? Either myself or the staff, one or the other. And if the staff prepared it, would you have a look at it? Yes. You would see that it was right? Yes. So those four hospitals would be Elkins Park, Bucks, St. Christopher's and MCP? Yes. Now, the patient accounting information from the PFSG was gross revenue; is that right?	Page 45
2 0 3 4 4 5 6 7 8 9 0 10 11 4 12 13 14 15 16 17	Q. A. Q. A.	And at Hahnemann you applied the balance sheet method every month? Every month, yes. So who would actually perform that calculation? That would be me and my staff that would do that. Would you do that or would Mr. Savchak or Ms. Gall and Ms. Forte? Normally the staff would. Early on when we were acquiring the DVOG hospitals I did a lot of the detailed work myself. I actually did most of it myself for the first couple of months before it was brought back to Pittsburgh. But normally the staff accountants would do that.	Page 43	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q. A. Q. A. Q. A. A.	that problem would get fixed at year-end? Yes, for the audit, yes. And did you prepare the calculations for those four hospitals using the balance sheet method at year-end? Either myself or the staff, one or the other. And if the staff prepared it, would you have a look at it? Yes. You would see that it was right? Yes. So those four hospitals would be Elkins Park, Bucks, St. Christopher's and MCP? Yes. Now, the patient accounting information from the PFSG was gross revenue; is that right? Primarily. There were different buckets of	Page 45
2	Q. A. Q. A.	And at Hahnemann you applied the balance sheet method every month? Every month, yes. So who would actually perform that calculation? That would be me and my staff that would do that. Would you do that or would Mr. Savchak or Ms. Gall and Ms. Forte? Normally the staff would. Early on when we were acquiring the DVOG hospitals I did a lot of the detailed work myself. I actually did most of it myself for the first couple of months before it was brought back to Pittsburgh. But normally the staff accountants would do that. Okay. So when you got hired in the spring of	Page 43	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. A. Q. A. Q. A. Q.	that problem would get fixed at year-end? Yes, for the audit, yes. And did you prepare the calculations for those four hospitals using the balance sheet method at year-end? Either myself or the staff, one or the other. And if the staff prepared it, would you have a look at it? Yes. You would see that it was right? Yes. So those four hospitals would be Elkins Park, Bucks, St. Christopher's and MCP? Yes. Now, the patient accounting information from the PFSG was gross revenue; is that right? Primarily. There were different buckets of receivables. I'll explain that. There were	Page 45
2 0 3 4 4 5 6 7 8 9 10 11 22 13 14 15 16 17 18 19	Q. A. Q. A.	And at Hahnemann you applied the balance sheet method every month? Every month, yes. So who would actually perform that calculation? That would be me and my staff that would do that. Would you do that or would Mr. Savchak or Ms. Gall and Ms. Forte? Normally the staff would. Early on when we were acquiring the DVOG hospitals I did a lot of the detailed work myself. I actually did most of it myself for the first couple of months before it was brought back to Pittsburgh. But normally the staff accountants would do that. Okay. So when you got hired in the spring of '95 AHERF was in the middle of consolidating	Page 43	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Q. A. Q. A. Q. A. Q.	that problem would get fixed at year-end? Yes, for the audit, yes. And did you prepare the calculations for those four hospitals using the balance sheet method at year-end? Either myself or the staff, one or the other. And if the staff prepared it, would you have a look at it? Yes. You would see that it was right? Yes. So those four hospitals would be Elkins Park, Bucks, St. Christopher's and MCP? Yes. Now, the patient accounting information from the PFSG was gross revenue; is that right? Primarily. There were different buckets of receivables. I'll explain that. There were people that were in-house that were still	Page 45

That would be my department in accounting.	2 3 4 5 6 7 8	Q.	inpatient side, normally if an account went to a final billed status on the inpatient side, the rates should have been loaded into this PRM, and the contractual should have been taken. But there were problems and issues with the data that was in the PRM. Did you have an understanding as to why the	
2 3 4 5 6 7 8 9 10	Q. A. Q. A. Q.	Yes. So the patient accounting system carried the in-house accounts and the discharge not final billed accounts at gross; is that right? Yes. Who then would make sure that those accounts receivable would be brought down to a net level? That would be my department in accounting. How did you do that?	2 3 4 5 6 7 8 9 10		inpatient side, normally if an account went to a final billed status on the inpatient side, the rates should have been loaded into this PRM, and the contractual should have been taken. But there were problems and issues with the data that was in the PRM. Did you have an understanding as to why the were problems with the PRM? I think one issue was with the conversion.	
2 3 4 5 6 7 8 9 10 11	Q. A. Q.	Yes. So the patient accounting system carried the in-house accounts and the discharge not final billed accounts at gross; is that right? Yes. Who then would make sure that those accounts receivable would be brought down to a net level? That would be my department in accounting. How did you do that? We primarily the easiest way to explain	2 3 4 5 6 7 8 9 10		inpatient side, normally if an account went to a final billed status on the inpatient side, the rates should have been loaded into this PRM, and the contractual should have been taken. But there were problems and issues with the data that was in the PRM. Did you have an understanding as to why the were problems with the PRM? I think one issue was with the conversion. Some of the stuff may not have been set up	
2 3 4 5 6 7 8 9 10 11 12	Q. A. Q. A. Q.	Yes. So the patient accounting system carried the in-house accounts and the discharge not final billed accounts at gross; is that right? Yes. Who then would make sure that those accounts receivable would be brought down to a net level? That would be my department in accounting. How did you do that? We primarily the easiest way to explain it, we looked at, for example, Medicare.	2 3 4 5 6 7 8 9 10 11 12		inpatient side, normally if an account went to a final billed status on the inpatient side, the rates should have been loaded into this PRM, and the contractual should have been taken. But there were problems and issues with the data that was in the PRM. Did you have an understanding as to why the were problems with the PRM? I think one issue was with the conversion. Some of the stuff may not have been set up correctly in Invision. That was one issue.	
2 3 4 5 6 7 8 9 10 11 12 13	Q. A. Q. A. Q.	Yes. So the patient accounting system carried the in-house accounts and the discharge not final billed accounts at gross; is that right? Yes. Who then would make sure that those accounts receivable would be brought down to a net level? That would be my department in accounting. How did you do that? We primarily the easiest way to explain it, we looked at, for example, Medicare. Medicare pays on a per case basis based on a	2 3 4 5 6 7 8 9 10 11 12 13		inpatient side, normally if an account went to a final billed status on the inpatient side, the rates should have been loaded into this PRM, and the contractual should have been taken. But there were problems and issues with the data that was in the PRM. Did you have an understanding as to why the were problems with the PRM? I think one issue was with the conversion. Some of the stuff may not have been set up correctly in Invision. That was one issue. Another issue was when a patient's	
2 3 4 5 6 7 8 9 10 11 12 13 14	Q. A. Q. A. Q.	Yes. So the patient accounting system carried the in-house accounts and the discharge not final billed accounts at gross; is that right? Yes. Who then would make sure that those accounts receivable would be brought down to a net level? That would be my department in accounting. How did you do that? We primarily the easiest way to explain it, we looked at, for example, Medicare. Medicare pays on a per case basis based on a DRG. We would look at the number of cases in	2 3 4 5 6 7 8 9 10 11 12 13 14		inpatient side, normally if an account went to a final billed status on the inpatient side, the rates should have been loaded into this PRM, and the contractual should have been taken. But there were problems and issues with the data that was in the PRM. Did you have an understanding as to why the were problems with the PRM? I think one issue was with the conversion. Some of the stuff may not have been set up correctly in Invision. That was one issue. Another issue was when a patient's financial class would change, meaning if he	
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Q. A. Q. A. Q.	Yes. So the patient accounting system carried the in-house accounts and the discharge not final billed accounts at gross; is that right? Yes. Who then would make sure that those accounts receivable would be brought down to a net level? That would be my department in accounting. How did you do that? We primarily the easiest way to explain it, we looked at, for example, Medicare. Medicare pays on a per case basis based on a DRG. We would look at the number of cases in the receivables at month end, and we would	2 3 4 5 6 7 8 9 10 11 12 13 14 15		inpatient side, normally if an account went to a final billed status on the inpatient side, the rates should have been loaded into this PRM, and the contractual should have been taken. But there were problems and issues with the data that was in the PRM. Did you have an understanding as to why the were problems with the PRM? I think one issue was with the conversion. Some of the stuff may not have been set up correctly in Invision. That was one issue. Another issue was when a patient's financial class would change, meaning if he came in Medicare and later we found out he	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Q. A. Q. A. Q.	Yes. So the patient accounting system carried the in-house accounts and the discharge not final billed accounts at gross; is that right? Yes. Who then would make sure that those accounts receivable would be brought down to a net level? That would be my department in accounting. How did you do that? We primarily the easiest way to explain it, we looked at, for example, Medicare. Medicare pays on a per case basis based on a DRG. We would look at the number of cases in the receivables at month end, and we would calculate out based on these per case rates	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16		inpatient side, normally if an account went to a final billed status on the inpatient side, the rates should have been loaded into this PRM, and the contractual should have been taken. But there were problems and issues with the data that was in the PRM. Did you have an understanding as to why the were problems with the PRM? I think one issue was with the conversion. Some of the stuff may not have been set up correctly in Invision. That was one issue. Another issue was when a patient's financial class would change, meaning if he came in Medicare and later we found out he really should have been Blue Cross, you	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q. A. Q. A. Q.	Yes. So the patient accounting system carried the in-house accounts and the discharge not final billed accounts at gross; is that right? Yes. Who then would make sure that those accounts receivable would be brought down to a net level? That would be my department in accounting. How did you do that? We primarily the easiest way to explain it, we looked at, for example, Medicare. Medicare pays on a per case basis based on a DRG. We would look at the number of cases in the receivables at month end, and we would calculate out based on these per case rates that our reimbursement department, Joe	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17		inpatient side, normally if an account went to a final billed status on the inpatient side, the rates should have been loaded into this PRM, and the contractual should have been taken. 		Page	58			Page 60
1		that didn't happen?		1	Α.	Yes.
2	Α.	Greg Snow.		2	Q.	Before you spoke to Coopers & Lybrand about
3	Q.	Now, we've moved on, I guess, to the	ı	3		the MCP, EPPI bad debt methodology, had you
4		outpatient accounts. Were final billed		4		had your own concerns?
5		outpatient accounts generally carried in the		5	A.	In '96, yes. I'll have to say in '95, when I
6		patient accounting system at gross or at net?		6		first came to Allegheny to start doing
7	Α.	Generally at gross. They tried to load		7		revenue I didn't have a lot of experience. I
8		patient accounting tried to load some of the		8		had to learn pretty quickly.
9		contracts into the PRM. But it's more		9		In '96 I probably wasn't as concerned
10		complicated, I think, on the outpatient side.		10		as Coopers until Coopers brought it up. My
11		I don't know what the split was. It might		11		concern was, of course, after they started
12		have been like 60-40, 60 percent gross, 40	İ	12		bringing it up that we were going to have an
13		percent net.		13		audit adjustment.
14		Our problem in accounting was always		14		But I knew just from looking at the
15		trying to determine what we needed to reserve		15		methodologies that there were problems, but I
16		and what we didn't based on what was at		16		was really concerned when Coopers had the
17		gross. That was a frustration that we had		17		same issues.
18		because they changed it constantly in patient		18	Q.	When you referred to an audit adjustment, can
19		accounting.		19	-	you just explain what that is?
20	Q.	For outpatient final billed accounts then was		20	A.	Yes. Normally after Coopers would review our
21		it your responsibility to reduce those from		21		financial statement, if they determined that
22		gross to net?		22		anything wasn't properly or adequately
23	Α.	If they were at gross, yes.		23		recorded on our general ledger, they would
24	Q.	And did you then calculate the bad debt		24		propose an adjustment to our financial
25		allowance as a proportion of net accounts		25		statements, sort of an after-the-fact
		Page	59			Page 61
l		receivable?		1		adjustment because the financial statements
2	Α.			2		unaudited would have been presented to
3		that we manually would reserve in accounting,		3		various people in the organization.
4		they would then take a net receivable number		4	Q.	Was an audit adjustment something you
5		and calculate bad debt expense on that		5		generally tried to avoid?
6		number.		6	Α.	Generally.
7	Q.	Now, a few minutes ago you were telling me		7	Q.	Why?
8	`	about the bad debt allowance methodology at		8	A.	It's better from our perspective. In
9		MCP, EPPI. That was, I think you testified,		9		accounting we are doing a better job if our
10		a methodology that was reserved only for		10		financial statements are accurate when
11		self-pay accounts and for patient portions of		11		Coopers comes in.
12		other accounts?		12		We always try to make them as clean
13	Α.	Correct.		13		as we could before Coopers came in. So
14	Q.	Do you recall any discussions that you may		14		generally we didn't like audit adjustments
15	-	have had about the MCP, EPPI bad debt		15		because it was a reflection maybe we weren't
16		methodology with Coopers & Lybrand during the		16		doing our job.
17		1996 audit?		17	Q.	A reflection meaning that more senior people
18	Α.	I know specifically when I say that they		18		at AHERF might believe that the accounting
19		generally had concerns about our methodology,		19		group wasn't doing its job?
20		the MCP, EPPI one was probably the biggest		20	Α.	Yes.
21		concern because that one because of how it		21	Q.	Do you remember who from Coopers & Lybrand
22		was done, probably there was the most		22	-	you spoke to during the 1996 audit about the
23		exposure was on that particular group.		23		MCP, EPPI bad debt methodology?
24	Q.	The most exposure meaning the greatest		24	Α.	Again, I think the two people I was most
25	-	potential that it was underreserved?		25		involved with were Amy Frazier and Brian
